The United Arab Emirates envisions foreign trade and investment relations to further strengthen its ties with government and people worldwide. Upholding sound partnerships and the spirit of cooperation promises positive returns that support prosperity and development.

In light of its strong historical relations with Malaysia, the UAE is always eager to further consolidate our partnership day after day and year after year. This is reflected by the importance we place in participating in forums that seek to strengthen our trade and investment bonds and channels.

In this regard, we consider the latest UAE - Malaysia Business & Investment Forum of great significance. The esteemed audience it gathers and the strong interest it generates with the presence and participation of senior officials, business leaders and business entities from both countries promote and elevate the directives of the wise leadership in both the UAE and Malaysia. Through this event practical steps will be discussed, reviewed and agreed on to reinforce our partnership, such as the establishment of joint entities and the pursuit of promising opportunities that we can rely on to build a strong future that benefits both countries.

The discussion of business opportunities and cooperation in many vital sectors related to the development of both countries' modern day renaissance - such as manufacturing, modern technologies, Islamic banking, small and medium - sized enterprises and Halal - will emphasize the numerous opportunities and sectors that can be considered in setting up joint ventures, establishing business entities, and creating even more opportunities.

The UAE Ministry of Economy wishes a highly successful outcome for the FORUM and hopes that targets will be achieved.

H.E Eng. Sultan bin Saeed Al Mansoori

UAE Minister of Economy

We believe that Global Trade can have an enduring positive impact on economic development and reducing poverty especially in the least developed countries.

We believe that high quality LIVE events between governments & business are essential to inspire and drive new ideas in trade. We connect Governments to Businesses through LIVE Exhibitions, Summits & Government Trade Missions to enhance bilateral and multilateral trade. We link G2G, G2B & B2B directly through high quality events that define trade policy and trade flows across borders. The GTDW international network reaches over 100,000 public & private sector trade leaders at the most senior levels to enhance trade facilitation and building capacity.

We have been making a difference for over 8 years facilitating amazing, relevant and defining content plus networking that defines the direction of international trade. Established 2010 Global Trade Development Week has been operating for 8 years and is now in the 14th Edition.

Since 2014 GTDW has unique MOU's in place with Ministry of Economy UAE & Federal Customs Authority UAE and we are appointed by Ministry of Economy to organize the 2018 UAE-Malaysia Business & Investment Forum in Kuala Lumpur the largest UAE Government trade mission to Malaysia in recent years.
